CHEETERZ
FIREARM ACCESSORIES

Whether you're protecting the ones you love at home or protecting yourself while out in a dangerous world, gaining proficiency with your firearm is critical. If you are shooting for sport or just spending time with friends, the more rounds you shoot, the more proficient you become. Cheeterz makes practice easier by reducing the time and effort associated with loading your magazine, allowing you more time to concentrate on shooting.

Easy to use

Minimizes stress to your hand. No need to touch the ammunition.

Pre-filled

Ready to use right out of the box, we load so you don't have to. No assembly required.

Disposable

Single use for maximum convenience. Use once and dispose. 100% recyclable.

Ergonomic

All steps integrated into one natural motion to reduce fatigue.

Fast

Reduces loading time by up to 50% vs. manual loading.

Flexible

Universal use. Works with any magazine.

Top Quality

Factory new, brass case. Made in U.S.A.

Green

Made from recycled materials.

**Now available in 9mm 115gr / 124gr / 147gr
Coming Soon: .380 ACP & .45 ACP**

**EASY TO USE • PRE-FILLED • UNIVERSAL
DISPOSABLE & RECYCLABLE**

Reloading As Easy As 1-2-3

1

A

PRESS

Align the Cheeter so that the displacement leg (A) contacts the brass just behind the bullet/casing interface. Press down to insert the cartridge.

SLIDE

Slide the Cheeter toward the rear of the magazine to insert the cartridge as far as possible.

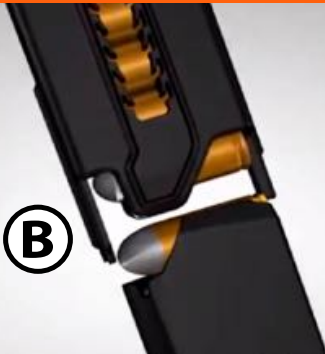

2

LIFT

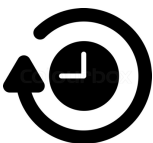

Lift the Cheeter away from the magazine to release the cartridge. Press the seating plate (B) against the toe of the cartridge if necessary, to fully seat.

3

B

REPEAT Until Your Magazine Is Fully Loaded!

At Cheeterz, our mission is to make shooting easier and more enjoyable. Most shooters agree that loading magazines is an unpleasant task that is difficult, time consuming, and often painful. Reloading issues are often cited as one of the main reasons people stop shooting. To address this widespread concern, Cheeterz Firearm Accessories has designed, developed, and patented an entirely new system that integrates top quality ammunition into a pre-filled disposable speedloader, which we call a Cheeter. To use, simply remove the pre-filled Cheeter from the box and load your magazine using a natural and comfortable motion. No assembly or additional steps required.

Once the Cheeter is empty, just recycle.

IT'S THAT SIMPLE!

Cheeterz are great for experienced shooters who want to shave their loading times and minimize fatigue. They are also perfect for shooters who have difficulty loading - enabling them to load their own magazines and empowering them to shoot without the assistance of others. We truly believe that through innovation, out of the box thinking, and old-fashioned hard work, Cheeterz Firearm Accessories can make shooting more accessible and help broaden the shooting community.

Make Practice *Purr*fect
